

Constitutional Convention?

Why The Body of Christ Should Vote YES

Innocent Unborn Alaskans Deserve Protection

“Rescue those being led away to death; hold back those staggering toward slaughter.” **Prov 24:11**

The Alaska Supreme Court has overturned every attempt by Alaskans to provide even modest protections for preborn children. They have literally manufactured a “right to abortion” in our Constitution that is clearly not there. The only possibility to enact policies that ensure the most innocent among us are given an opportunity to take their first breath is to clarify that our State Constitution is silent on the issue of abortion.

The historic overturning of *Roe v Wade* gives our state a unique moment in time to clarify that abortion regulations should be left to the people through their elected representatives. Unelected judges have no jurisdiction on abortion law. Amending our Constitution is critical in order to address the human rights issue of our time.

Parental Right To Direct The Upbringing of Our Children

“Train up a child in the way he should go: and when he is old, he will not depart from it.” **Prov 22:6**

Gender ideology, critical race theory, LGBTQ activism and other philosophies counter to a Christian worldview are rampant in our public schools. Because of the unprecedented activism by the National Education Association (NEA) and many, if not most, public school administrators, teachers and counselors, Alaska needs a robust school choice option for parents concerned about the ideologies being taught in classrooms that are antithetical and indeed, hostile, to a Christian perspective. The Alaska State Constitution, as it is currently written, prevents the majority of our population from accessing private education opportunities. Ultimately, parents, not the Government, should have the primary responsibility for training their children. With such a powerful educational lobby in place in Juneau, it is nearly impossible for real change to take place. A Constitutional Amendment is our best hope for slowing down the Left’s incessant determination to indoctrinate Alaska’s youth.

Our Judicial Selection Process Does Not Reflect the People

“Furthermore, you shall select out of all the people able men who fear God, men of truth, those who hate dishonest gain; and you shall place these over them as leaders of thousands, of hundreds, of fifties and of tens.” **Exodus 18:21**

During the original delegation of the Alaska State Constitution, outside consultants from the Lower 48 were called upon to provide a report to the delegates on their view of how judges were to be appointed in our new state. The consultants provided the following words of wisdom – *“No state constitution has ever gone this far in placing one of the three coordinate branches of Government beyond the reach of Government controls. We feel that in it’s desire to preserve the integrity of the courts, the convention has gone farther than is necessary or safe in putting them in the hands of a private, professional group...”* This consultant report never even made it to the floor for the full delegation to consider. And since that time, conservative Governors have been unable to place judges in place with a strict constructionist or original intent judicial view. The only way to provide balance to the court is to amend our Constitution through a convention.
