1. Do you support an amendment clarifying that the Alaska state constitution does not provide for a right to abortion, or the right for public funding of abortion?

UNDECIDED,

I am undecided on the specifics of a constitutional amendment pertaining to abortion. In general, I support restricting access to abortion to those cases of rape, incest, or where the mother's life is endangered.

UNDECIDED,

Comment:

My preference is to form an all-Republican caucus with Senators who are committed to the conservative values that we share. If there are not enough Republicans to form a majority, then my next priority is to ensure the needs of my constituents are met, which may mean joining a bi-partisan caucus. In the current Senate organization, I was able to stop liberal policies of the left-leaning members and pass good legislation to support hard working Alaskans, our economy, and our students. As Chair of the Labor & Commerce Committee, I was able to stop bad, liberal legislation that would have moved Alaska in the wrong direction. SB 101 would have mandated green energy and SB 107 that would have expanded the LGBTQ agenda. I was able to kill both bills because I was in the Senate Majority.

Q10

1. Do you support an amendment clarifying that the Alaska state constitution does not provide for a right to abortion, or the right for public funding of abortion?

NO,

Comment:

The Constitution is already clear on this point. If you need a constitutional amendment to correct every instance of judicial activism we will expend finite resources doing so and be further behind because judges can write bad decisions faster than we can pass constitutional amendments.

Q11

2. Do you support an amendment to the Alaska state constitution that would protect the right of a parent to provide consent and/or receive notice before an abortion is performed on the parent's minor child?

NO,

Comment:

There is nothing in the Constitution that conflicts with these rights. If you need a constitutional amendment to correct every instance of judicial activism we will expend finite resources doing so and be further behind because judges can write bad decisions faster than we can pass constitutional amendments. It is also natural for politicians to blame the constitution and point to the supposed need for a constitutional amendment as an excuse instead of accepting responsibility for their part in solving the problem.

Q12

3. Would you support a bill like HB 107 which would define personhood and life as beginning at conception?

YES,

Comment:

I would want a lot more work to go into drafting such a bill than went into drafting HB107.

Q13

4. Do you support eliminating state government funding of Planned Parenthood, and all other entities that either perform or promote abortions?

YES

Q14

5. Would you support a bill like HB 338, which would hold medical professionals financially liable for harm caused to minors for whom they conducted "gender transitioning" procedures?

YES,

Comment:

I would recommend consideration of a bill like HB213.

Q15

6. STATEMENT: Publicly funded buildings that maintain multi-occupancy locker rooms, showers, restrooms, and similar facilities should be required by law to designate such facilities for use only by persons of the same biological sex.

AGREE,

Comment:

I would like to ensure there is also allowance for single occupancy rooms which would need not need to limited to a particular sex.

Q16

7. Would you support a bill like HB 105 which would recognize parents' authority to determine whether their child should be exposed to sex education classes, to specify which nouns and pronouns their child will use in school, and to have access to their child's full school records?

YES

Q17

8. Do you support allowing all parents to use tax credits and taxpayer funded empowerment scholarship accounts to enable their children to attend any private school, homeschool, or online academy of their choice?

YES,

Comment:

I believe that would be an improvement over the status quo.

Q18

9. Would you support a bill like HB 183, the "Save Girls' Sports Act," which would prohibit biological males from competing in women's sports?

YES,

Comment:

Women's sports should be safe places for female athletes.

Q19

10. Would you support permitting individuals and businesses to not provide services or promote ideas that violate their moral or religious beliefs?

YES

Q20

11. Would you refuse to join a coalition majority in which the opposite political party controls a majority of seats?

YES,

Comment:

Coalitions in Alaska are designed to appeal to the self interest of the legislators involved instead of being centered on policy matters. Such coalitions invariably promote the legislators involved and do so at the expense of their constituents. I will not sacrifice my constituents for my own personal and political interests.

Q10

1. Do you support an amendment clarifying that the Alaska state constitution does not provide for a right to abortion, or the right for public funding of abortion?

YES,

Comment:

Currently, the Alaska Constitution allows abortion until the moment before birth, which is grossly out of step with the rest of the civilized world and shocks the conscience. I believe the State Constitution should not allow for late term abortions (except for the life of the mother and other special considerations). I support this amendment as it aligns with my belief that the state constitution should not guarantee public funding for such procedures, especially in the late term.

Q11

2. Do you support an amendment to the Alaska state constitution that would protect the right of a parent to provide consent and/or receive notice before an abortion is performed on the parent's minor child?

YES,

Comment:

If parental consent is required for minors to get tattoos, it must be required to receive such serious medical procedures, such as abortion, that can lead to sterilization and other complications. This amendment would uphold parental rights and ensure families are involved in critical life changing decisions.

Q12

3. Would you support a bill like HB 107 which would define personhood and life as beginning at conception?

YES,

Comment:

Alaska has one of the most radical positions on abortion in the nation and it is frankly appalling that the Alaska Supreme Court has enshrined this into our State Constitution. Because of this, legislation is meaningless without a Constitutional amendment. While I wholeheartedly believe that life begins at conception, it is clear from history that any personhood legislation is dead on arrival. It is imperative that we do not adopt the all or nothing stance on abortion because any incremental change that is accomplished is another life saved. Because personhood legislation does not have enough support to pass, we should work on a bill that does have bi-partisan support such as a 15-week ban.

Q13

4. Do you support eliminating state government funding of Planned Parenthood, and all other entities that either perform or promote abortions?

YES,

Comment:

I support eliminating state funding for organizations like Planned Parenthood that perform or promote abortions, especially late term.

Q14

5. Would you support a bill like HB 338, which would hold medical professionals financially liable for harm caused to minors for whom they conducted "gender transitioning" procedures?

YES,

Comment:

Medical professionals that perform these experimental surgeries on our minors must be held liable. They are not upholding their hippocratic oath to "do no harm" and instead have sold these families out for money. Gender transitioning surgery is now a multi-billion dollar industry that has corrupted our medical professionals. Doctors often tell parents of these minors, who actually need psychiatric care, that if the surgery is not done their child will commit suicide. What loving parent could possibly say no to that kind of manipulation. Our children's bodies are not for sale.

Q15

6. STATEMENT: Publicly funded buildings that maintain multi-occupancy locker rooms, showers, restrooms, and similar facilities should be required by law to designate such facilities for use only by persons of the same biological sex.

AGREE

Q16

7. Would you support a bill like HB 105 which would recognize parents' authority to determine whether their child should be exposed to sex education classes, to specify which nouns and pronouns their child will use in school, and to have access to their child's full school records?

YES,

Comment:

Parents should have the ultimate authority over their children's education and upbringing. I support legislation that protects parents' inherent right to make these critical decisions, ensuring their values and beliefs are respected in the school environment.

Q17

8. Do you support allowing all parents to use tax credits and taxpayer funded empowerment scholarship accounts to enable their children to attend any private school, homeschool, or online academy of their choice?

YES,

Comment:

Every student learns differently, we should be supporting students and parents in whatever way they learn best.

Q18

9. Would you support a bill like HB 183, the "Save Girls' Sports Act," which would prohibit biological males from competing in women's sports?

YES,

Comment:

I support legislation that ensures fair competition in women's sports by prohibiting biological males from competing. This protects the integrity of women's athletics and ensures a level playing field for female athletes.

Q19

10. Would you support permitting individuals and businesses to not provide services or promote ideas that violate their moral or religious beliefs?

Comment:

The Supreme Court of the United States has consistently ruled on this topic, and I don't see any legislation at the state level being needed.

Q20

11. Would you refuse to join a coalition majority in which the opposite political party controls a majority of seats?

YES,

Comment:

It is important to never compromise on principles.

Not only should medical professionals be financially liable for harm caused to minors enduring "gender transition" but that same financial liability should be used for the appropriate level of mental health counseling for the involved minor and/or their consenting parents.

I absolutely would not compromise my integrity nor the District 8 constituency by caucusing with the opposing majority.

8. Do you support allowing all parents to use tax credits and taxpayer funded empowerment scholarship accounts to enable their children to attend any private school, homeschool, or online academy of their choice?

Comment:

This is the goal. Education institutions that successfully educate our children should be promoted and those that don't should be reformed or eliminated. It is in society's best interest to have the best schools money can buy, regardless if they are public, private, or religious. However, the details matter and our state constitution may have to be changed to reach the goal. Our state constitution prohibits public funds directly benefiting private or religious institutions.

Alaska Republican Party, District 1

Q10

1. Do you support an amendment clarifying that the Alaska state constitution does not provide for a right to abortion, or the right for public funding of abortion?

Comment:

The right of privacy is an important right in Alaska, however, I don't believe this directly translates to unlimited abortion right. Clarification of existing language may be required and the public process needs to be followed.

Q11

2. Do you support an amendment to the Alaska state constitution that would protect the right of a parent to provide consent and/or receive notice before an abortion is performed on the parent's minor child?

UNDECIDED,

Comment:

This is an important issue and I believe a parent has a right to know if their child is receiving a medical procedure. I'm not sure if an amendment to the constitution is required to protect parents rights; I need more information to make an informed opinion.

Q12

3. Would you support a bill like HB 107 which would define personhood and life as beginning at conception?

UNDECIDED,

Comment:

I need more information to make an informed opinion on HB 107.

Q13

4. Do you support eliminating state government funding of Planned Parenthood, and all other entities that either perform or promote abortions?

UNDECIDED,

Comment:

Overall Yes, I don't believe it is the roll of government to fund abortion, however, if other medical support services are being provided for women's health, those may be permissible. I need more information to make an informed opinion.

Q14

5. Would you support a bill like HB 338, which would hold medical professionals financially liable for harm caused to minors for whom they conducted "gender transitioning" procedures?

YES,

Comment:

Overall, yes; however, I need more information specifically for HB 338 to make an informed opinion.

Q15

6. STATEMENT: Publicly funded buildings that maintain multi-occupancy locker rooms, showers, restrooms, and similar facilities should be required by law to designate such facilities for use only by persons of the same biological sex.

AGREE

Q16

7. Would you support a bill like HB 105 which would recognize parents' authority to determine whether their child should be exposed to sex education classes, to specify which nouns and pronouns their child will use in school, and to have access to their child's full school records?

YES,

Comment:

Overall, yes; however, I need more information specifically for HB 105 to make an informed opinion.

Q17

8. Do you support allowing all parents to use tax credits and taxpayer funded empowerment scholarship accounts to enable their children to attend any private school, homeschool, or online academy of their choice?

UNDECIDED,

Comment:

Conceptually it is something to consider, within the authority allowed under the Alaska Constitution. However, this is a conceptual question that does not directly align to Alaska's education system.

Q18

9. Would you support a bill like HB 183, the "Save Girls' Sports Act," which would prohibit biological males from competing in women's sports?

YES

Q19

10. Would you support permitting individuals and businesses to not provide services or promote ideas that violate their moral or religious beliefs?

YES,

Comment:

This has been a longstanding protection in the U.S. Constitution.

Q20

11. Would you refuse to join a coalition majority in which the opposite political party controls a majority of seats?

YES,

Comment:

If there is a possibility of a Republican majority, I would not join a coalition of non-republicans, especially if I was the deciding factor. The ARP has specific rules related to this issue.

I believe in the sanctity of life, and I do not support public funding of abortion, but I would need more information around the wording of the amendment to make a decision.

I do not support state funding of Planned Parenthood. I am concerned that this would effect physicians in situations where a mother's life is at stake so I would need clarification on the definition of 'other entities'

Q9

The absence of any opposition in District 24 to my re-election is about the strongest endorsement a public service could wish for. As such, I have not sought additional endorsement this election cycle.

Q10

YES

1. Do you support an amendment clarifying that the Alaska state constitution does not provide for a right to abortion, or the right for public funding of abortion?

Q11

YES

2. Do you support an amendment to the Alaska state constitution that would protect the right of a parent to provide consent and/or receive notice before an abortion is performed on the parent's minor child?

Q12

YES,

3. Would you support a bill like HB 107 which would define personhood and life as beginning at conception?

Comment:

HB 107 provides a definition for "life" that can be reasonably interpreted to mean that life begins at conception. The bill would be stronger if it included a clear definition of its term "moral right of self-determination," but would still get my vote in its current form.

Q13

YES

4. Do you support eliminating state government funding of Planned Parenthood, and all other entities that either perform or promote abortions?

Q14

YES,

5. Would you support a bill like HB 338, which would hold medical professionals financially liable for harm caused to minors for whom they conducted "gender transitioning" procedures?

Comment:

Minors should not be subject to chemical, hormonal or surgical "gender-affirming" procedures, and liability for harms caused by such procedures on minors would appropriately dampen the reckless eagerness of some medical professionals to conduct them.

Q15

AGREE

6. STATEMENT: Publicly funded buildings that maintain multi-occupancy locker rooms, showers, restrooms, and similar facilities should be required by law to designate such facilities for use only by persons of the same biological sex.

Q17

YES,

8. Do you support allowing all parents to use tax credits and taxpayer funded empowerment scholarship accounts to enable their children to attend any private school, homeschool, or online academy of their choice?

Comment:

Parents should have primary authority over their children's education, and a functional society requires a well-educated citizenry. Each child is unique, and I know from raising my own family that different children thrive in different educational environments. Public dollars should be spent in a way that gives every parent the opportunity to make sure their children get the education that best suits their individual needs, and results in the best possible outcome for each student.

Q18

YES,

9. Would you support a bill like HB 183, the "Save Girls' Sports Act," which would prohibit biological males from competing in women's sports?

Comment:

I voted for HB 183.

Q19

10. Would you support permitting individuals and businesses to not provide services or promote ideas that violate their moral or religious beliefs?

YES,

Comment:

Current laws rightfully prohibit business owners from refusing service on the basis of race or gender. It's therefore reasonable to pass similar laws to protect business owners and respect their right to decline to do business in violation of their own deeply held beliefs.

Q20

11. Would you refuse to join a coalition majority in which the opposite political party controls a majority of seats?
