Q1

YES

Would you support allowing public health programs such as Medicaid to cover infertility services like IVF?

Q2

Undecided,

Would you oppose providing public funding for elective abortions beyond the federal Hyde amendment, which limits funding to instances of rape, incest and to save the mother's life?

Comments - :

This question is worded so poorly that I am unclear as to what it means. As a grammar teacher, I think you need to revise the question. I support free abortion on demand for everyone.

Q3

Undecided,

Would you support establishing a federal prohibition on abortion after the point at which the baby can feel pain (approximately between 12 and 15 weeks)?

Comments - :

You have asked a question that should have a yes/no answer, but now you give a choice of support or oppose. Either answer would be ambiguous. I don't support any limits on abortion except viability.

Q4

Undecided,

Would you support requiring immediate reasonable medical attention to be given to any baby that survives a failed abortion attempt?

Comments - :

Again the question calls for a yes/no answer, not agree/disagree, Is English your second language? Did you just move here from a foreign country?

Q5

YES,

Would you support establishing age requirements for TikTok and other social media platforms?

Comments - :

Okay . You're learning English and finally give a proper yes/no choice.

Q6

Would you support prohibiting biological males who self-identify as female from competing on all-girls' high school or collegiate athletic teams?

Undecided,

Comments - :
It depends.

Q7

Would you support prohibiting medical clinics from providing gender reassignment treatments and surgeries for minors, regardless of parental preference?

NO

Q8

Would you support restricting public funding for colleges and universities that require DEI (diversity, equity, and inclusion) training?

NO

Q9

Would you support prohibiting banks and investment entities from closing accounts of churches and faith-based entities because of their religious beliefs?

Comments - :

Again, the answer should be yes/no. My answer is no.

Q10

Would you oppose allowing the 2017 Tax Cuts and Jobs Act, which lowered tax rates for families and expanded the child tax credit, to expire in 2025?

Undecided,

Comments - :

The tax cut needs to be modified. The yes/no choice you are giving is simplistic. I took Income Tax in law school and a proper answer requires more complexity.

Q11

Ballot Measure 2, which narrowly passed in 2020, overturned our traditional election method, eliminating party primaries and installing ranked-choice voting (RCV) in general elections. Do you support repealing Ballot Measure 2?

NO

Q12

Did you sign the petition to repeal Ballot Measure 2?

NO

Q13

Closed primaries allow members of political parties to elect the candidate who will carry their banner without interference from those who don't share their values. By replacing closed primaries with the current "jungle primary," Ballot Measure 2 allows multiple candidates from a single party to proceed to the general election, increasing voter confusion, and potentially leading to adverse outcomes due to ballot exhaustion. Candidates can effect the same result as closed primaries if they pledge to withdraw if they come in behind another member of their own party in the primary. Do you pledge to withdraw from the race if, in the primary election, you receive fewer votes than another member of your own party?

Undecided,

Comments - :

There is no other member of the No Labels Party running in this race or any other in the country.

Q14

NO

Would you support establishing a national school choice tax credit (i.e. Educational Choice for Children Act) that allows families to access scholarships through private donations to help their child attend a K-12 school that best meets his or her needs?

Q1

Would you support allowing public health programs such as Medicaid to cover infertility services like IVF?

NO

Q2

Would you oppose providing public funding for elective abortions beyond the federal Hyde amendment, which limits funding to instances of rape, incest and to save the mother's life?

YES,

Comments - :
Planned parenthood, is money drop for democrats. taxpayer money is used to finance the murder incorporated. Planned parenthood received 550 million taxpayer dollars, and is going to spend 40 million in the upcoming election. Where do you think their going to send that money?

Q3

Would you support establishing a federal prohibition on abortion after the point at which the baby can feel pain (approximately between 12 and 15 weeks)?

AGREE,

Comments - :
Life begins at conception, In Leviticus the word says life is in the blood. Abortion is the shedding of innocent blood. The democrats need abortion to serve their Master, for Satan gives his power to those who worship him through innocent blood.

Q4

Would you support requiring immediate reasonable medical attention to be given to any baby that survives a failed abortion attempt?

AGREE

Q5

Would you support establishing age requirements for TikTok and other social media platforms?

NO,

Comments - :
You cannot stop, that which is out in the open. Parents need to be in charge.

Q6

Would you support prohibiting biological males who self-identify as female from competing on all-girls' high school or collegiate athletic teams?

YES,

Comments - :

There are only 2 species according to Genesis Chapters 1,2 and 3. Male and female. to go beyond that is just a perversion and a lie.

Q7

Would you support prohibiting medical clinics from providing gender reassignment treatments and surgeries for minors, regardless of parental preference?

YES,

Comments - :

I will send them a strong delusion that they believe a lie.

Q8

Would you support restricting public funding for colleges and universities that require DEI (diversity, equity, and inclusion) training?

YES,

Comments - :

I would deny any funding, to any and all colleges, because the American tax payers have no obligation to pay for (higher learning) when those taking a free ride are not responsible to pay it back, but become , shills to the democrat party and have those useless graduation papers. When those "students" come out and protest a Nations right to defend itself, and eradicate Muslim organizations bent on Israelis destruction, and would behead many of the " college" graduates. There should be no funding of any colleges anywhere in the U.S.

Q9

Would you support prohibiting banks and investment entities from closing accounts of churches and faith-based entities because of their religious beliefs?

AGREE

YES,

Comments - :

I'm a fair tax guy.

YES,

I put yes, but don't remember if I had the chance.

Comments - :

Because the race isn't over. I have been overlooked at times because I was not the republican party choice.
